**I'M SHAUN SCOTT:  
AN ORGANIZER, ADVOCACY  
JOURNALIST, DEMOCRATIC  
SOCIALIST, AND 26-YEAR  
RESIDENT OF SEATTLE.**

I'm running to represent Seattle City Council District 4 because I have a vision for Seattle that is rooted in addressing and alleviating the condition of our most vulnerable citizens. As a former student at the University of Washington, a renter in District 4, and a labor organizer with the Campaign Workers Guild, I'm intimately familiar with how struggles for affordable housing and economic justice weigh on residents of my district. Join me in making Seattle a fair city. Let's imagine a future for us all.

OP-ED

"My vision for my city cannot be compromised, because it was created in the cauldron of activism, of advocacy journalism, of anti-racist and anti-capitalist scholarship and organizing. Seattle's greatest export has always been its ideas, and this campaign will be an example of what can happen when we make the political process work for those it has historically ignored."

FULL ARTICLE

The Urbanist

"Scott brings a depth and breadth of perspective that is rare among Seattle City Council candidates. His work demonstrates he has also spent a lot of time considering what qualities and attributes make a city succeed (or fail) its residents. For Scott, using city policy to reduce carbon emissions and address the climate crisis is a matter of urgency."

FULL ARTICLE

PODCAST

"Shaun, a member of Seattle DSA, also talks about how he is going about building his campaign and remaining accountable to the organizers that will be necessary to get him elected. We discuss how one can build a winning coalition made up of a broad range of working-class constituents while not compromising one's principles for the sake of expediency."

INTERVIEW

"There is a very large part of the district that is not used to having visible council leadership. I'm interested in talking about the things that are going to make them want to get involved so we have a city that's actually representing where young people are at, what our anxieties are, where comparatively less well-off poor people are at, what's going to make it so we can see ourselves actually reflected in government."
